# PC3 Transfection Protocol (Kit for Prostate Cancer Cells)

Catalog No. 3227	Size: 0.5 ml
Catalog No. 3228	Size: 1.5 ml
Catalog No. 7078	Size: 8.0 ml

#### **Contents and Shipping:**

PC3 Transfection Kit includes PC3 Transfection Reagent (0.5 ml / 1.5 ml / 8.0 ml), Transfection Enhancer (0.5 ml), and Complex Condenser (0.5 ml). PC3 Transfection Reagent is supplied in liquid form at a concentration of 0.3 mg/ml, shipped at ambient temperature.

### **Description:**

Two component lipid-based proprietary formulation optimized for PC3 cells transfection.

### **Product Qualification:**

PC3 Transfection Reagent is tested functionally by transfection of PC3 cells with a small interfering RNAs targeting 3 different genes (Lamin A/C, GAPDH, Cyclophilin B). Transfection Reagent is tested for absence of nuclease contamination and microbial contamination.

### Storage:

Store reagent at 4°C upon receipt. If stored properly, reagent is stable for 12 months.

## **Intended Use:**

For in vitro use only.

## Safety Data Sheet (SDS):

SDS documents are available online at https://altogen.com

#### In Vivo Transfection Kits (for compound testing in rodents):

- Catalog #5010 / 5011 / 5012 Lipid In Vivo Transfection Kit
- Catalog #5020 / 5021 / 5022 Polymer In Vivo Transfection Kit
- Catalog #5030 / 5031 / 5032 Nanoparticle In Vivo Transfection Kit
- Catalog #5040 / 5041 / 5042 PEG-Liposome In Vivo Transfection Kit
- Catalog #5050 / 5051 / 5052 Pancreas In Vivo Transfection Kit
- Catalog #5060 / 5061 / 5062 Liver In Vivo Transfection Kit
- Catalog #5070 / 5071 / 5072 Kidney In Vivo Transfection Kit

#### **Transfection Controls and Recommended Products:**

- Catalog #4060 GFP-expressing plasmid DNA (25 ug)
- Catalog #4061 Cell Cycle Arrest siRNA (5 nmol)
- Catalog #4062 Apoptosis Inducing siRNA (5 nmol)

#### To Place an Order:

Both domestic (USA) and international orders can be placed online (<u>https://altogen.com</u>) using credit card payment. Purchase Order (PO) can be faxed at (702) 989-0841 (for USA only).

### Scaling Up or Down Transfections:

Culture Vessel Surface Area (cm <sup>2</sup> )	Volume of Growth Medium (ml)	Transfection Reagent (µl)	Complex Condenser (µl)	Transfection Enhancer (µl)
96-well, 0.3 cm x cm	0.12	1.2	0.3	0.3
24-well, 2 cm x cm	0.5	4.5	2	2
12-well, 4 cm x cm	1	10	4	4
6-well, 10 cm x cm	3	30	12	12
60-mm, 20 cm x cm	5	50	20	20
10-cm, 60 cm x cm	15	150	60	60

#### **Optimizing Transfection:**

To obtain the highest transfection efficiency, optimize transfection conditions by varying PC3 cell density and amount of transfection reagent. High passage of PC3 cells and use of antibiotics (or growth factors) may require using larger volumes of PC3 transfection reagent per reaction.

#### Limited Use Label License:

The purchase of this product conveys to the purchaser the limited right to use the purchased amount of the product only to perform internal research for the sole benefit of the purchaser. This product is for research purposes only and is not for use in commercial applications of any kind. For information on obtaining additional rights, please contact Altogen Biosystems at <u>orders@altogen.com</u>.

#### **Limited Product Warranty:**

This warranty limits our liability to replacement of this product. No other warranties of any kind, express or implied, including, without limitation, implied warranties of merchantability or fitness for a particular purpose, are provided by Altogen Biosystems. Altogen Biosystems shall have no liability for any direct, indirect, consequential, or incidental damages arising out of the use, the results of use, or the inability to use this product. This product is developed, manufactured and sold for research purposes only. Reagent is not suitable for administration to humans.
